

VENABLES OAK

DOORS

Whether it's a new build or restoration, Venables Oak can produce custom made doors that will help 'realise the dream'.

There are none of the restrictions of a standard joinery range, so all doors can be specially made from the finest materials and to the highest specification and design to be in keeping with the style of the property. The company can give advice on design and style for historic and period properties and reproduce any style that may be required.

Solid Oak Doors

Venables Oak also stocks a range of standard designs, including ledged and braced, four panel, six panel and half glazed.

Oak Ledged and Braced Doors

These are made from specially selected, kiln dried character grade oak. The boards are machined to a 22mm finish thickness with a bead and butt between the tongue and groove and are screwed and pelleted to the ledges giving an attractive but substantial feel. The braces are supplied loose enabling them to be handed when hung.

Solid Oak Panelled Doors

Venables Oak stocks four, six and half glazed panelled internal doors. These doors are made with solid colour-matched panels.

Ironmongery

Venables Oak also stocks an attractive range of hand forged ironmongery to complement the doors and can also supply oak Suffolk latches.
