

VENABLES OAK

HARDWOOD PLANKING

Venables Oak sourcing is second to none. Oak and European hardwoods are obtained from specialist mills in Europe where the company has long term trading relationships. There are weekly deliveries from French sawmills, meaning that even a non-stock order can usually be turned round in five working days.

Some Venables Oak customers will only use timber from one particular sawmill and the company respects and supports this. Phoning an order through to the team at Venables Oak will guarantee dealing with someone who is an expert in wood.

Quality is paramount as is husbandry of the environment. Venables Oak can supply PEFC certified hardwoods with an approved chain of custody certification.

The Venables Oak range includes

- Ash
- Beech
- Cherry
- Elm
- Oak
- Sycamore

The company stocks both waney-edged, through and through and square-edged planking. It also stocks oak and beech squares in most thicknesses and specifications.

Thicknesses in stock

12mm, 19mm, 27mm, 34mm, 41mm, 54mm, 64mm, 80mm, 100mm.

Available in lengths

Planking – 1.8m and longer

Timber from Venables Oak is kiln-dried to an average of 12% moisture content.
