

VENABLES OAK

KITCHENS

As with all its work, the Venables Oak approach to kitchens is a little different.

For a start, Venables Oak is not “kitchen manufacturer”, using whatever standard units fit in the space. The company works with the customer to make a unique, lovingly crafted composition in wood: a kitchen to fit the style of your home be it Gothic, Contemporary, New England or hand painted. Venables Oak will also create that special item to suit – tables and chairs to order as well as the fitted shelving, the counter tops, the radiator covers, free standing pieces...

There are many different timbers and the kitchen can be finished with a clear natural finish or a variety of paint effects.
