

VENABLES OAK

GARDEN PRODUCTS

Whether it's the supply of the oak fencing, beams or sleepers for landscaping project, or the commission of a bespoke garden structure, Venables can help. Recent commissions have included, gazebos, pergolas, bridges, orangeries and planters.

Key to its appeal is the fact that Venables Oak is not a "garden manufacturer", using whatever standard components fit in the space. The company works with the customer to make a unique, lovingly crafted composition in wood: a practical or ornamental structure to fit the style of your home and garden, be it Gothic, Contemporary, New England or Victorian.

With its natural longevity and fine looks, oak structures for the garden are a class apart from pressure treated pine or softwoods.
